Linux Install Fest Guide

How to get security patches:

1. Click on <System> -> <Administration> -> <Ubuntu Update Manager> on the top taskbar.
2. Enter your password.
3. Click install.

How to add and remove programs:

1. Click on <System> -> <Administration> -> <Synaptic Package Manager> on the top taskbar.
2. Enter your password
3. Click on smart upgrade to upgrade all programs on your system.
4. Select programs to install or remove.
5. Confirm selection.

Crossover from Windows to Linux:

1. MS Office -> Open Office
2. AIM/MSN/ICQ/Yahoo -> Gaim
3. Browser -> Firefox
4. Email -> Thunderbird
5. Windows Media Player -> Xine
6. iTunes -> Rhythmbox
7. Winamp -> Xmms
